CHINA-GERMANY FUTURETECH & CAREER INSIGHTS

About the organizers

Huangpu is an administrative district of the Tier 1 city Guangzhou (Kanton) – the capital city of Guangdong Province. With USD 60 Billion, Huangpu generates a local GDP that compares to those of the city of Cologne (Germany), the metropolitan region of Toulouse (France), or Malmö metropolitan area (Sweden).

District leads in terms of economic and innovative performance in China and is home to around 20,000 private enterprises, 4000+ Multinationals (e.g., Honda, LG, Bayer, Samsung, Lonza, P&G, Zeiss, Hyundai, Magna, Astra Zeneca, Covestro, Siemens), 300+ Global Fortune 500 Projects, and 70+ listed companies. In recent years, Huangpu became one of China's future economy hotspots with companies in electric vehicles and autonomous driving (e.g., WeRide, XPeng, GAC), autonomous aerial vehicles (e.g., Ehang), semiconductor (e.g., Cansemi, Hinnotech), or life science (e.g., Beigene, Biosygene, Hennovcom).

China-Network Baden-Württemberg e.V. (CNBW) is a non-profit platform that brings together the interests of companies, municipalities, institutions, universities, colleges and other organizations as well as private individuals. The CNBW sees itself as a neutral organizer and moderator of offers for the exchange of know-how, practical knowledge, opinions and contacts. The guiding principle for all activities is mutual understanding for a good and successful cooperation.

The purpose of the association is the promotion of the German-Chinese understanding, especially the Baden-Württemberg-Chinese understanding. Chinese, as well as the stringent expansion of the information base in the economic, scientific and cultural area. The offers of the CNBW are directed to German companies, which want to work in or with China. And to Chinese companies, which want to work in China and to Chinese companies, which are already active in Germany or want to operate enterprises. And to representatives of municipalities, institutions, universities, colleges and other organizations

The China Centre Tübingen (CCT) is a central institution of the University of Tübingen, sponsored by the Karl Schlecht Foundation (KSG). Processes of transformation worldwide require a more intensive mutual intercultural perception and thus a deeper knowledge of each other. On the basis of shared knowledge, it is possible to build trust. This is especially true for China. Accordingly, the CCT sees itself as a bridge institution for linking science, business and civil society. China Competence, Economic Culture and China as part of school discipline.
